Company profile:

LV develops practical engineering software for more than 33 years and has special knowledge in refinery design / plant design. A team of engineers with many years of experience answers all of your questions. Our high-level quality assurance is affirmed every year by certification per EN ISO 9001:2008 / ZertRegNr 01 100 044763.

LV Software is technical-scientific software with a focus on thermal process engineering, pressure vessel design and piping.

Manufacturing- / delivery programme:

SOFTWARE

- Separators, Pressure Vessel Design, Piping, Pipe stress, FEM
- Properties, Hydrodynamics, Thermodynamics
- Combustion, LV Heat Atlas, Heat Exchangers.

ENGINEERING SERVICE

- consulting, calculations, CFD, FEM
- manpower for your project
- training courses and workshops on special request.

PRESSURE VESSEL DESIGN
