Company profile:

Since its foundation in 1975 the company ROHRLEITUNGSBAU SÜD has focused on specialized piping installations and tank construction. A dedicated team of more than 90 trained employees is available any time to give expert support to customers at home and abroad.

The company's scope of services comprises consulting, planning, construction, static calculations and – last but not least – on-time manufacturing to the customers' requirements.

Leading chemical groups and paper and machinery manufacturers from all over Germany are among their customers. The company's reference list includes projects in many European countries, in the United States and in the Far East.

Manufacturing- / delivery programme:

Pipeline construction

Tank construction

Process engineering

Environmental technology

- Expert advice for technical solutions,
- Project planning and implementation,
- Support across all programme phases.

Thanks to their experience and know-how our project team will find the right material and the most efficient design for any temperature, media and pressure requirements.

Our scope of service is complemented by our reliable maintenance.
