Company profile:

PS professional solutions hard- & software GmbH, established in 1991, is a developer of programs and system solutions for CCTV-inspection. High practical orientation and close cooperation with customers has always been the basis for their development work

The software PIPEX (short for pipe explorer) is a key element of a variety of products for CCTV-inspection. PIPEX can be specifically designed to meet your requirements and fields of application.

PIPEX allows for easy adaption of new legal requirements, new regulations or implementation of latest technology. PIPEX not only offers proper solutions but is also trend setting.

Manufacturing- / delivery programme:

Software: PIPEX

- Data collection
- Data management
- Digital video recording
- Digital image conversion
- Viewing functionality

- Reporting
- Measuring
- Data export
- Remote video recording control
- Data overlay

PIPEX offers interfacing to all current inspection tools as well as data export to more than 30 data management systems.

Products: Development - Design - Manufacturing

- Video text generator
- Meter counter
- Video cable line driver

- System solutions
- System components
- Customer-specific solutions.

The modular-type components ensure a customer-orientated, yet structured implementation of CCTV inspection or pipe rehabilitation systems.
