Company profile:

Pipe cleaning rather than new installation – this is what the company STOCKSIEFEN has focused on since 1991. Their services and specially designed products (e.g. cleaning pig technology and high pressure cleaning) are aimed at customers from the industry and the municipal sector.

STOCKSIEFEN's specialist team has professional and ideal solutions available even for the hardest deposits in pipes, containers and vessels.

The cleaning methods used for pipes and pipeline systems are highly efficient and adapted to the individual requirements of the industry sector.

Manufacturing- / delivery programme:

CLEANING PIGS for cleaning, emptying and drying of piping systems

Special products:

- Cleaning pigs with lifting and pulling eye
- Cleaning pigs with hollow space for installation of a transmitter
- Cleaning pigs for two-directional application
