Company profile:

Sklarz Abwasser- und Umwelttechnik GmbH was founded in 1990 as an independent commercial agent for waste water and environmental products and offers competent advice for their customers.

Today the company is a developer, manufacturer and vendor of their proprietary and proven pressure test systems, some having acquired patent rights. Sklarz have export business and reference projects across Europe.

In 1992 the company started to expand their business by setting up a service division for sewer CCTV, sewer cleaning, combined vacuum/jetting tankers and TÜV approvals for tank vehicles. Sklarz endeavour to complete all service tasks at short notice.

In-house engineers and technicians with long expertise are at the customers' disposal to solve specific problems and to develop tailor-made concepts.

Manufacturing- / delivery programme:

PRESSURE TESTING

1. Air pressure/vacuum test for pipes
2. Vacuum test for manholes
3. Water test for pipes
4. Water test for manhole/separator
5. High-pressure test for pipes
