**Company profile: Your specialist for of pipe systems**

The SANHA group is one of the leading European manufacturers of pipe systems for drinking water, gas, solar, heating, cooling and sanitary applications for use in domestic and industrial settings. We have approximately 8500 items in our product ranges, covering most commonly used materials such as Copper, Copper Alloys, Stainless and Carbon steel, as well as our innovative Silicon Bronze, lead free fittings, for use in Drinking Water applications.

Our premium systems are installed throughout Europe, Russia, Asia and Australia, in domestic, industrial, commercial and even Shipbuilding industries. With our large portfolio, manufactured from a wide range of materials, SANHA is recognised as a respected partner of distribution and installation companies alike. As a family owned and operated business, SANHA has over 50 years of experience, employs over 650 staff and turns over app. 100 million Euro.

**Complete systems manufactured in our own factories**

SANHA's principal focus is on system technology. We believe fervently in supporting local markets with relevant certification. As an innovator in press technology, we have invested significantly in developing lead-free Silicon Bronze products, for safe drinking water applications. With our manufacturing depth throughout Europe, committed employees, and our drive for innovation, we have laid strong foundations for future success.

Our manufacturing plants specialise in tube and fitting production, with our Stainless Tube plant in Berlin and Stainless Steel fitting plant near Dresden, along with our Head office and central distribution depot in Essen, we are able to serve our customers well throughout Europe. With over seventy percent of our products being manufactured internally, we have a strong control over quality and our supply chain, ensuring the end product meets the stringent requirements of our customers.

## Manufacturing- / delivery programme:

SANHA manufactures approximately 8,000 products for the system and connection technology.

### An ear for our customers

Our customers are central to all our activities. As a family enterprise, SANHA highly values an active close and long term relationship with all our partners, from designers, installers, contractors and trading companies. With over fifty years of service, we are committed to close support of our customers, with a highly experience local and international technical service.

### For all practical purposes

Installation systems from SANHA are designed with the practical engineer in mind. Our "Combipress" function embodies this, saving not only time and money, but provides a maximum level of safety for a tight, state of the art connection.

We are also proud of our programme of site based training programmes and design based technical seminars, approved by CIBSE. Our local Technical Sales Managers are experienced in training, and the practical experience required, to deliver an interesting and informative session, wherever it may be.
