Company profile:

The G+H Group is one of the market-leading service providers for heat, cold, noise and fire protection (WKSB). Our philosophy is a decentralized structure with the focus on our own employees. Our own production workshops ensure our independence from the market. From consulting and planning to delivery and installation, we offer our customers complete solutions from a single source.

With over 42 branches we are represented throughout Germany. With our central research and development department and by participating in standardization committees and inter-company working groups, G+H ensures that innovations flow directly into everyday practice.

You can find further information on the Internet at www.guh-group.com.
