

H2O-Solarwasser UG

Max-Eyth-Str. 55a
D-46149 Oberhausen

E-Mail: albin@solarwasser.eu
Internet: www.solarwasser.eu

Company profile:

Solarwasser deals with the problem of supplying a family with the daily requirement of drinking water from contaminated or salt water. A spring in your own garden – so to speak.

Evaporation and condensation are natural. It is essential to concentrate the process in such a way that within 24 hours a substantial amount of solar water is yielded using the sun's energy.

Sevices and product range:

Equipment for the production of pure H2O for drinking water from sea, river and brackish water using solar energy.

Principle:

The sun evaporates the H2O, it is condensed, collected and purified. Without engine and emission-free.

Solar water is pure H2O, mineralienarm, free from bacteria and therefore versatile.
