### **Company profile:**

Grundfos is the world's largest pump manufacturer, based in Denmark, with more than 18,000 employees globally. Grundfos was established in 1945 in Bjerringbro by the late Poul Due Jensen. Grundfos is a global leader in advanced pump solutions and a trendsetter in water technology. We contribute to global sustainability by pioneering technologies that improve quality of life for people and care for the planet.

With an annual production of more than 16 million pump units, Grundfos is one of the world's leading pump manufacturers. Circulator pumps for heating and air-conditioning and other centrifugal pumps for industry, water supply, waste water and dosing are the major products. Today, Grundfos is the world's largest manufacturer of circulator pumps, covering approximately 50 percent of the world market for these pumps.

### **Manufacturing- / delivery programme:**

#### **Expertise**

Buildings, Groundwater & Irrigation, Water Supply & Wastewater, Industrial.

#### **Products**

Circulator pumps (UP), submersible pumps (SP), and centrifugal pumps (CR).

Grundfos also produces electric motors for the pumps as well as electric motors for separate merchandising.

#### **Service**

Grundfos is a world-class provider of Service, from specification and designing, to installation, operation including maintenance, repair, optimisation and contingent replacement, building enduring customer relations and satisfaction.

#### **The Mission**

Grundfos is one of the world's leading pump manufacturers. It is our mission - the basis of our existence - to successfully develop, produce and sell high-quality pumps and pumping systems world-wide, contributing to a better quality of life and a healthy environment.
